Part III REASONS FOR ALLOWANCE

1. The prior art of record does not disclose, teach, or suggest the claimed limitations of (in combination with all other features in the claim), setting an indicator if a set of content provider selected printer settings is unavailable to be downloaded to the computer system with the document; choosing, in the computer system, a group of printer settings from a group of potential printer-setting sources; associating, in the computer system, the printer settings with a document; and sending the printer settings to the printer prior to printing the document; wherein the potential sources include at least one set of user-selected printer settings selected by a user of the computer system, and a set of content-provider-selected printer settings selected by a content provider of the document if the set of content-provider-selected printer settings are available as claimed in claim 1. Similar features are claimed in claims 8 and 11-16. Therefore, claims 8 and 11-16 are allowable over the prior art of record for the same reasons.
